Plagiarism

- You have access to Turnitin – USE IT!!
- We use Turnitin to vet all written submissions including assignments and Honours Long Essay
 - You are encouraged to use Turnitin before submitting your assignments and long paper
- We can detect plagiarism and use of AI
- Doesn't mean don't use AI, but it within the UCT guidelines and within reason

Plagiarism

Clone

Submitting another's work, word-for-word, as one's own

CTRL-C

Contains significant portions of text from a single source without alterations

Find - Replace

Changing key words and phrases but retaining the essential content of the source

Remix

Paraphrases from multiple sources, made to fit together

Recycle

Borrows generously from the writer's previous work without citation

Hybrid

Combines perfectly cited sources with copied passages without citation

Mashup

Mixes copied material from multiple sources

404 Error

Includes citations to non-existent or inaccurate information about sources

- Please be aware that if any other entity submits your assignment to Turnitin on your behalf, this will detect your submission via your **Turnitin 2019** faculty Vula site as a plagiarism match, not as your own work, because the submission becomes that of the person who submits for you. Alternatively, the work that you submit to this site should not be submitted to any other Vula site that is using Turnitin for plagiarism detection. This will detect your submission to this site as a plagiarism match. Should either of these happen, we will not request paper removals from the Turnitin database.

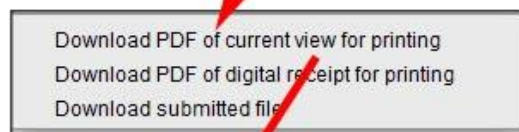

Step 1: Return to the assignment and find the "View report" link

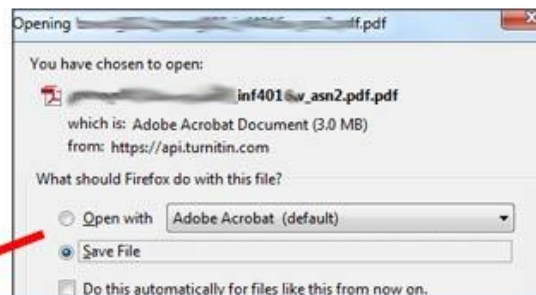

Step 2: After clicking the View Report link the Turnitin Document Viewer will launch. Find the print icon in lower left

Step 3: Click the print icon and select the "Download PDF of current view for printing"

Step 4: Choose to open the pdf

Step 5: In the pdf, below your submission, you will see the cover page of the Turnitin Report
